

Thin Check Valve SS Body and Disc & CS Body and Disc

FIG. 5315
FIG. 5316

Specifications

- The short face to face dimension and compact design of this Valve allow installation and service in tight spaces.
- Soft sealed for perfect tightness even at low differential pressure.
- Flanged and drilling complies with EN1092-2 PN10/16;ANSI B 16.1 Class125 .
- Rated Working Pressure 16 bar/250psi.

Corrosion Protection

- Internally and Externally Cr plated for Carbon Steel Body and Disc.

Material Specifications

Part	Material	EN Specification	ASTM Specification
Body	Stainless Steel	EN 10213 GX5CrNiMo19-11-2	A351 Grade CF8M
	Carbon Steel	EN 10213 GP240 GH	A27 Grade 450-240
Cover	Stainless Steel	EN 10213 GX5CrNiMo19-11-2	A351 Grade CF8M
	Carbon Steel	EN 10213 GP240 GH	A27 Grade 450-240
Hook	Carbon Steel		
O-Ring	Rubber	Viton	
Holder	Stainless Steel	EN 10213 GX5CrNiMo19-11-2	A351 Grade CF8M
